

FRANCISCO CORTEZ

SYSTEM ENGINEER AND FRONTEND DEVELOPER

Specialized in Frontend programming, with experience in developing web-oriented applications and services, with different modern web 2.0 technologies.

Within my stack of frontend technologies I can highlight JavaScript and TypeScript, using them in a pure way and also using them with the ReactJS library and all the tools that wrap it to handle routes, forms and global states

Projects

• Pokedex

Pokedex is an application in which you can see or search all the pokemons and their characteristics in which I was able to develop an infinity scroll for the application's pagination with the native Intersection Observer API.

• FlagQuiz

Flag Quiz is an application in which you can learn the flags of various countries in the world with a game

• Weather

Weather app with Vanilla JS and using the Weatherapi API
